

Statistical Sources Of Intersociety Report: 1,316 Christians Hacked To Death In 200 Days (1st Jan-20th July 2020)

Wednesday, July 22, 2020 (Updated)

- World Press Conference by Rev Joel Billi, President of Church of Brethren in Nigeria, 2nd July 2020: Disputing Government's Lies: While we remain committed as Nigerian citizens in supporting the government of the day in achieving its mandate, EYN was shocked at the Democracy Day Speech of President Buhari on June 12, where he said, "All the local governments that were taken over by the Boko Haram insurgents in Borno, Yobe, and Adamawa have long been recovered and are now occupied by the indigenes of these areas who were hitherto forced to seek a living in areas far from their ancestral homes." That was unfortunate, misleading, and demoralizing

The fact on ground is this: EYN had four District Church Councils (DCC) prior to the insurgency in Gwoza Local Government Area of Borno State, to which none is existing today. There are over 18,000 of our members who are still taking refuge in Minawao, Cameroon. There are also about 7,000 EYN members who are taking refuge in other IDP [internally displaced person] camps in Cameroon among which are Ngaudare, Bavangwala, Karin Beka, Zhelevede, Garin Njamena, Mazagwa, and Moskwata. Yes, there are people now in Gwoza town and Pulka, but all areas behind the Gwoza hills where the concentration of the Gwoza population is, are still not inhabited. The total number of IDPs in the Cameroon camps who are over 95 percent from Gwoza is over 47,000 people, who have never received attention from the government be it state or federal. The bulk of displaced members of EYN live in Maiduguri, Adamawa, Nasarawa, Taraba, the FCT, and some are spread across many states of the federation.

Displaced communities of Gwoza Local Government Area that are not inhabited are: Chinene, Barawa, Ashigashiya, Gava, Ngoshe, Bokko, Agapalwa, Arboko, Chikide, Amuda, Walla, Jibrili, Attagara, Zamga Nigeria, Agwurva, Ganjara, Zhawazha, Balla, Timta, Valle, Koghum, Kunde, Pege, Vreke, Fadagwe, Gava West, Sabon Gari Zalidva, Tsikila, and Hambagda. More worrisome is the fact that from the end of last year 2019 to June 2020, there had been over 50 different attacks on different communities carried out by the Boko Haram and most were either unreported or under reported by both the print and electronic media. I shall be specific with facts and figures to buttress my point.

1. On Dec. 25, 2019, Boko Haram attacked Bagajau community of Askira/Uba LGA of Borno State killing Christians. Damjuda Dali, the head of the household, and his two children with their friends were burnt down in their room--Daniel Wadzani, Ijuptil Chinampi, Jarafu Daniel, and Peter Usman. Dauda Bello, Baba Ya'u, and a female, Kawan Bello, were killed, while Aisha Bello, Rufa'i Bello, and Amina Bello sustained various degrees of injuries and were receiving treatment at Askira General Hospital. That was an attempt to wipe out an entire family.
17. Three days later, on June 2, 2020, Boko Haram returned to Kwabila village of Askira/Uba LGA of Borno State killing Bello Saleh, the head of the household, while Amina Bello, who had been receiving treatment, died in the hospital.
18. On June 7, 2020, Kidlindila community of Askira/Uba LGA of Borno State witnessed its own share of the Boko Haram attacks after experiencing such attacks twice in 2019. 19. June 16, 2020 was a thick cloud of man's inhumanity to man as Boko Haram devastated Mbulabam of Chibok LGA of Borno State, abducting a young girl by name Mary Ishaku Nkeke while her two brothers, Emmanuel and Iliya, went missing for three days.

- **Communities in South-East groan, as herdsmen take over farmlands**
<https://www.vanguardngr.com/2020/07/communities-in-south-east-groan-as-herdsmen-take-over-farmlands/amp/?fbclid=IwAR0U4JerRFWM8p-YwCiO6FZOrDQG3Ncs2YebAfmLPAHSPEz32CX-TGBVfJw>**(July 1, 2020)**

We cried out when Ozuitem community in Bende area of Abia State was invaded and attacked by the herdsmen and nobody did anything. People were slaughtered and property destroyed. A month later, another community in the same Abia State, Ndi Okereke Abam in Arochukwu council, was equally attacked by the herdsmen. Nothing was done. In early hours of April 6, 2019, the herdsmen attacked farmers' settlement in Anambra West Council of Anambra State. What about the dastardly attack on Umuawa-Ibu community in Okigwe council area of Imo State. In Enugu, on June 14, 2019, the same herdsmen attacked a commercial bus carrying traders, mainly women returning from the market along Agbani-Ugbawka road in Nkanu East council area and abducted three young women after they had robbed the traders.

The internal outcry over these atrocities has become deafening. These herdsmen also butchered a whole family and a Catholic seminarian on apostolic work in Nkanu. The story is the same Ebonyi and Imo States. In Imo State, herdsmen have unleashed terror in Oguta, Ohaji-Egbema and Orlu as well as other parts of Igbo land. And recently, the killing of Ozoemena Iriaka from Umuekpu in Agwa community in the same Oguta council area was added in the list of casualties of these murderous herdsmen.

Also lamenting the situation, Bishop Henry Okeke of Mbamili Diocese of the Anglican Communion expressed worry over the alarming spate of killing by herdsmen and called on the Federal Government of Nigeria to step up action in securing the country. Anambra West council area of Anambra State was one of the areas in State that have taken a big share of killer herdsmen attacks in recent times, particularly this year 2020; the farmers were attacked in their farm settlements and some lives were lost and they suffered the effects of the attack socially and economically. Odikpo Madubueze named some of the attacked communities to include Ifite Anam, Mmiata Anam, Umudeza Ebegbu and Iyiora Anam as well as Umuikwu Anam, Nzam, Inom, and Onono. They were attacked by the herdsmen in January, the beginning of our farming season and seven people were killed while many sustained both gunshot and matches injuries.

The traditional of Ifite Anam, Igwe Sylvester Udakor Nnose, said: "The herdsmen forcefully occupied their settlement in our communities without the traditional ruler and President and Chairmen of the communities' consent, yet they were allowed to stay even after forcefully occupying our land and the only way to pay us back for our magnanimity was killing our people". SEV learned that the recent herdsmen attack in Onicha council area, where an indigene of the State was alleged to have lost his life as a result of the clash between herdsmen and members of Ezube-Amankpuma village in Okawu community has been addressed.

During the recent incident in Onicha, the victim, Maduabuchi, was reportedly killed by suspected Fulani herdsmen and his body was found on along Onu Euka road, after Ukaba Development Centre. A motorcycle belonging to the deceased was also taken away by his killers. Killings in June: Other killings took place in Niger (5), Kaduna (15), Kogi (11), Taraba (16), Ebonyi (4), Benue (21), Abuja (7), Jigawa (3), Plateau (2), Adamawa (23). 152 killed in Borno by Boko Haram. The murder of The House notes the gruesome murder of Mr Eugene Iloabani in his farm at Isiokwe village, Amankpunato, Oji River LGA, Enugu State.

- News Express, July 1, 2020, a middle-aged woman who was allegedly raped to coma in a farmland at Ebenebe in Awka North local government area of Anambra State by suspected herdsmen has reportedly died in her home state of Ebonyi. the woman, whose name was given as Agnes Okekpe from Abakaliki local government area was said to be working on a farmland in the community as a labourer late last year when suspected herdsmen who went into the farm with herd of cattle allegedly gang-raped her until she lost consciousness. She was later taken to her state by her relations for treatment where she recently died. Daily Independent, 22nd June 2020, Food Scarcity: Uzodinma Accused Of Lip Service To Herdsmen Menace In Imo.

There are indications that most farmers across Imo State are no longer willing to go to farm for fear of being killed, harassed or raped by Fulani Herdsmen who allegedly invaded farmlands and forests in the state. DAILY INDEPENDENT gathered that farmers have abandoned their old yields such as cassava, yam, cocoyam and other crops ready for harvesting in their respective farms for fear of the unknown, and state of insecurity occasioned by the presence of killer Herdsmen. The first planting season that started as early as February 2020 has just ended without farmers achieving their desired goals of weeding and planting new crops in their farmlands. The emotional trauma of farmers and incessant invasion of the Herdsmen have apparently been responsible for food scarcity being experienced in the state.

Local Governments in the state where Herdsmen have inflicted collateral damage, causing rape, destroying farmlands, crops and untimely death of citizens of the area include; Ezinihitte Mbaise, Ngor/Okpala, Owerri North, Owerri West, Mbaitoli, Onuimo, Okigwe, Ehime Mbano, Ihitte-Uboma, Obowo, Ohaji-Egbema and Oguta Local Government Areas of the state respectively.

- Family Research Council, USA, 25th June 2020, Gilbert cites a number of the most recent examples of the ongoing carnage, such as the Islamist massacre of 81 people during an attack on Foduma Kolomaiya village in northeast Nigeria earlier this month as well as twin attacks that killed 20 soldiers and more than 40 civilians in Borno State on June 13. Similarly, jihadists recently [gunned](#) down a Nigerian Christian pastor along with his wife who were working on their farm in Taraba State, leaving orphaned the couple's eight children, ages 1 to 19, Gilbert notes.
- **Vanguard, June 23, 2020, 10 Anambra communities lament as herdsmen destroy farmlands. RESIDENTS of 10 communities in Awka North local government area of Anambra State have lamented the destruction of their farmlands by suspected herdsmen.**
- This Day, June 21, 2020, Ogbakha-Edo, a Benin socio-cultural group, yesterday lamented the activities of Fulani herdsmen in different parts of Edo State, alleging that they were taking over farmland and forest illegally. Also, the group lamented the influx of hundreds of youths from the north into the state, calling on security agencies and the state government to address the issue before it gets worse. In a statement by its Secretary-General, Dr. Osaretin Izekor, the group said apart from eye witness reports, the social media was awash with videos of young men coming into the city through long haulage trucks, or streaming in a dreadful surge in the streets of Benin City.

The statement said: "Ogbakha-Edo has in recent weeks observed with concern the sudden influx of hundreds, if not thousands of young able-bodied jobless men ostensibly of the Hausa/Fulani tribe from the northern parts of Nigeria and from outside the country, into Benin Kingdom, nay Edo South."

- Via Dr. Sandra Duru, June 21, 2020, Umumbara-Ahaba in Obi Orodo Community, Mbaitolu LGA, Jihadists butchered a man in his 60s and laid him by the side of his bicycle.
- June 15, 2020, Global Sentinel, Suspected Fulani herdsmen have reportedly killed over 10 people in Agatu, Benue State, North Central Nigeria. Agatu was the venue of 2015 massacre of about a thousand villagers by armed herdsmen on the guise of a revenge attack for their cattle that were either rustled or killed. Benue State is one of the hotbeds of violent clashes between herders who are mostly of ethnic Fulani group and local tribes who mostly engaged in farming. In the latest incident, an official of the State claimed that at least 10 villagers have been killed and many wounded by armed attackers. Agatu council chairman Usman Suleiman told local media that unidentified gunmen attacked villagers who were returning from the fields early Sunday. Noting that the wounded were taken to the hospital, Suleiman said security forces were dispatched and an investigation has been launched.
- Daily Post, June 14, 2020, The Middle Belt Forum, MBF, has expressed great concern with the way many communities in the region have come under what they called unprovoked and premeditated attacks by suspected herdsmen resulting in the loss of lives and massive destruction of property. The forum observed that amidst the COVID-19 pandemic that has resulted in lockdown in states of the country, it expressed dismay that many communities in the region have come under attacks by suspected Fulani herdsmen.

The statement by its National President, Pogu Bitrus, noted that killer herdsmen in the early hours of Sunday, June 14, 2020, launched an onslaught on Agatu communities in Agatu Local Government Area of Benue State, killing no fewer than nine persons and injuring 15 persons, adding that the attackers also razed down the Adana community and torched many houses in three communities of Olegogbeche, Olegeje and Olegede with the injured presently receiving medical treatment in undisclosed hospitals. The forum further observed, “Penultimate Sunday, these bandits had invaded Igede communities of Itakpa and Echori in Okpokwu Council Ward of Obi Local Government Area of Benue State where they killed no fewer than 15 persons and injured 23 persons. Those who sustained various degrees of injuries were taken to hospitals in Oju and Otukpo LGAs, while hundreds of internally displaced persons took refuge at the IDP camp located at the Pilot Primary School Ibarike-ito.”

The statement noted that the renewed Benue attacks by those the forum described as “bloodthirsty herdsmen” is a reflection of the resurging insecurity ripping across various communities in the country. In Kaduna state, the statement added that agents of terror have continued to let loose their long fangs of horror and spreading dread, as tension continues to brew in Zangon Kataf Local Government Area of the state, pointing out that the killing of an Chawai young man over farmland by the Hausa ethnic group had led to the deployment of security personnel who shot another youth to death and left 14 other persons injured.

“The present tension in Kaduna state is coming on the heels of spates of killings and decimation of Adara communities in Kajuru Local Government Area where dozens have been killed and several villages sacked, with thousands rendered homeless and now in IDP camps and faced with a bleak future,” the forum lamented. In Niger state, according to the forum, Gbagyi, Kamuku, Ungwai and Bassa communities have also come under renewed attacks in Munya, Rafi and Shiroro Local Government Areas, with recent onslaughts claiming the lives of many people, including a cleric and kidnappings of others.

“This is not the first time the military is carrying out this kind of shoddy job in our area, last month, the Special Force deployed to Gbishe in the neighbouring Benue state carried out a raid on Gberifan Village in Takum Local Government Area of Taraba State, three houses were destroyed in the attack and three persons arrested. “Just last week, the military again carried another operation on Peva town, the house of the chairman of the Peva yam market was burnt alongside three other houses in the name of looking for bandits. “Their families and associates are not been harassed, what is the jurisdiction does the military now has to harass our poor farmers and refugees in their own land? - Media Views, 10th June 2020: Benue lost over 60 persons in Benue Community to Herdsmen in April to early June 2020-Gov Samuel Ortom. Governor Samuel Ortom of Benue state has stated that suspected Fulani herdsmen have killed over sixty persons in Benue state in the last two months. Governor Ortom disclosed this on the occasion of the inauguration of the newly reconstructed yam market and the 200,000 capacity yam storage facility built by the Federal Government in Zaki-Biam, Ukum Local Government Area (LGA) of the state on Tuesday. The Governor said, “We are worried about the resurgence of armed Fulani herdsmen attacks on Benue people especially in the rural areas.

“Between April and June this year, over sixty (60) Benue people have been killed by herdsmen attackers across the state.” Benue state is ready to provide food security to the entire country but the activities of the Fulani herdsmen have continued to thwart this effort. “As one of the ways to halt these attacks, we call on the Federal Government to stop the continued free entry of armed herdsmen from other countries into Nigeria.

Suspected Armed bandits, numbering about 50 were reported to have abducted 30 persons and killed two vigilante members in Nasarawa Local Area (LGA) of Nasarawa State, North Central Nigeria. The region is the epicenter of the Farmers-Herders conflict between the Fulani herdsmen and the indigenous farmers. The Chairman of the LGA, Muhammad Otto, confirmed that: “The armed bandits killed two members of the Vigilante Group of Nigeria (VGN) near Onda Hill. “The vigilantes were ambushed when they went after the bandits as they attempted to rescue the abducted people. “Their corpses were brought to Nasarawa from the area for burial.” Some sources said the gunmen numbering about 50 blocked the Udege/Loko road for hours on Monday. Fifty of the bandits rode on 25 motorcycles and kidnapped the people on Monday night.
- This Day Newspaper, June 1, 2020, Kaduna Community Urges Security Agencies to Recover 30 Corpses of Victims of Attacks. President of the Southern Kaduna Peoples Union (SOKAPU), Mr. Jonathan Asake, has appealed to security agencies to help in recovering corpses of over 30 people killed in the recent attacks on some communities in Kajuru Local Government Area of Kaduna State. He also faulted claims by the Kaduna State Police Command that the killings only took place in two communities, saying that over 20 communities, which include Anguwan Dantata, Anguwan Goshi, Anguwan Maigizo, Angwan Maidoki, Anguwan Jama’a, Makyali, Gonan, Rogo, Idazo, Magunguna, Angwan Rana and Kujeni, among others were attacked.

We were told that over 30 people that were killed have not been buried because nobody can go back to the communities again for fear of being killed. During the visit, victims of the attacks from several communities, including the village head of Anguwan Arha, Mr. Kedo Alkali, told the SOKAPU President that their attackers killed, looted and burnt their homes. The victims also said about 60 people were missing and expressed fears that they may have been abducted or killed in the bushes.

- From Adara PG: On the 23rd of April 2020, Kujeni, a remote village in Kajuru LGA was attacked. The Fulani terrorists retreated to the forest between several neighboring villages after killing two persons and burning down more than 25 houses and a church. Youths from the neighborhood mobilized and pursued the terrorists into the forest. To the shock of the youth, they were ambushed by a combined team of soldiers and Fulani terrorists accosted by some military vehicles. The soldiers used so much fire power on the youth which made them to flee and run for their lives in different directions. Some of the youth eventually returned to their villages safely. However, many of them are still missing to date. Those confirmed still missing and believed to have been killed are as follows:

- **More Facts Concerning Ongoing Islamization In Nigeria:** Report by two Christian missionaries in Bali Local Government Area of Taraba State, dated 31st May 2020 was a shocking one. Mr. David Bumba and Mr. Haruna Thomas both missionaries had reported to TASCOMO that some Fulani Herdsmen violently took eight rural Christians in the area in a village called Jauro Afe on the ground that “their cow died close to their village and for that reason the villagers must pay”. This is just one of the ways they have been victimizing and intimidating local Christians in the area as well as other interior villages in the north.

They (missionaries) also told us that the following villages were all Christian villages before but now fallen to Islam just because of materials inducements using items like motor cycles, sugar, generators, wrappers etc. Among the formerly Christian villages in Taraba State, but now converted to Islamic villages are: Gomboni, Diko, Obadaya, Wurbo, Dobbam, Bangoni, Tunga, Kwanti-jassa, Nadukku and Jatau.

Lastly, in Duuru Village which is one of the villages in that location, a Pastor got converted to Islam recently because of neglect, intimidation and frustration. Some got converted just to buy peace. Sadly, most churches in cities are ignorant or have put up a nonchalant attitude. These have been going on for a while. The sole plea of these endangered Christians was that they should be helped with materials and finances for evangelism. They also need our frequent visit to encourage them.

“Beloved, what is going on quietly all over Nigeria from village to village is terrible. There is a ground Islamic take over through various means while Christians are sleeping and enjoying their lives in the cities. There is an underground conversion to Islam going on. Many interior villagers are converting to Islam because of poverty and ignorance. These include interior villages in the southeast (Igbo Land) and southwest (Yoruba Land) and not just in the north. During our last mission visit before the Covid-19 lockdown to a village in Itesiwaju LG of Oyo state, it was part of our discoveries”.

“This is why one of the National Emergencies the Global Christian Update Magazine has spotted is Mission Emergency. As our young men and women are busy migrating to the cities, Fulani and other caliphate missionaries are infiltrating and taking over Christian villages. Through their efforts (violence and inducements), such Christian villages are being turned to Islam. There are many villages in Nigeria with churches before but now, there are no churches any longer but mosques. The fact is that there is a comprehensive plan on the ground to Islamize Nigeria”. - **UK’s APPG Report: Unfolding Anti Christian Genocide In Nigeria?:** The All-Party Parliamentary Group for International Freedom of Religion or Belief, United Kingdom, has launched a new report in Westminster today, 15th June 2020, entitled [Nigeria- Unfolding Genocide?](#) The report launch featured speeches from the Chair of the APPG, **Jim Shannon MP**, Co-Chair **Baroness Cox**, and **Rebecca Sharibu**, the mother of Leah Sharibu who was kidnapped by Boko Haram two years ago and has yet to be released.

Background: APPG members have been alarmed by the dramatic and escalating violence in Nigeria characterised as the farmer-herder conflict. This violence has manifested along ideological lines, as the herders are predominantly ethnic Fulani Muslims and the farmers are predominantly Christians. There has been significant debate about what factors are driving and exacerbating this crisis. Therefore the APPG launched a parliamentary inquiry to help develop a nuanced understanding of the drivers of violence and increase parliamentary, public and Governmental interest in the issue. The report is the result of that inquiry.

Impact: The APPG’s inquiry found that Nigerian Christians are experiencing devastating violence, with attacks by armed groups of Islamist Fulani herders resulting in the killing, maiming, dispossession and eviction of thousands. The exact death toll is unknown. However, Humanitarian Aid Relief Trust quote reliable reports that over 1,000 Christians were killed between January-November 2019, in addition to the estimated 6,000+ deaths since 2015.

International Crisis Group estimate that over 300,000 people have been displaced and that the violence has claimed the lives of six times more people than the conflict with Boko Haram. Violence by herders, and periodic retaliatory violence, is costing the Nigerian economy £10.5 billion per year.

Causes: The report finds that a key factor driving this violence is the impact of the growing power and influence of Islamist extremism across the Sahel, which drives some militant Fulani herders to target Christians and symbols of Christian identity such as churches. Indeed, hundreds of churches have been destroyed, including over 500 in Benue State alone. Other key factors driving this violence include climate change, desertification, and resource competition, the influence of politics, criminality, the ready availability of firearms and the spread of misinformation.

Attacks by armed groups of Islamist Fulani herdsmen have resulted in the killing, maiming, dispossession and eviction of thousands of Christians. These factors are compounded by the Nigerian Government's failure to respond adequately to the violence, to protect communities or to bring perpetrators of violence to justice. These issues need to be addressed if we are to save lives and improve the welfare of civilians and the report makes many recommendations about how this can be done.

Comments From The Chair Of The APPG: In the Foreword to the report, Jim Shannon MP, Chair of the APPG for International Freedom of Religion or Belief says: *Over my ten years as a Member of the UK Parliament, the COVID-19 crisis has surely been one of the most difficult and surreal challenges I have experienced. Constituents have told me of their physical suffering, of job losses, and the pain of not being able to visit their loved ones. This widespread and tremendous difficulty is a somewhat novel experience for many of us in the UK but for countless Christians living in Nigeria, extreme challenges are nothing new.*

Shockingly for a Commonwealth country, Nigeria ranks twelfth on Open Doors World Watch List 2020 of the countries in which Christians are most persecuted. By comparison, Syria ranks eleventh and Saudi Arabia ranks thirteenth, with Iraq fifteenth and Egypt sixteenth. One of the main drivers of this persecution in Nigeria is the militant group Boko Haram who frequently abduct and kill those who refuse to conform to their extremist brand of Islam. Unfortunately, Boko Haram are not the only threat that Nigerian Christians face. Attacks by armed groups of Islamist Fulani herdsmen have resulted in the killing, maiming, dispossession and eviction of thousands of Christians.

As Parliamentarians, I believe it is our responsibility to speak out on behalf of all the survivors and victims of violence, and all those who are suffering but who cannot speak out for themselves. One such survivor is Leah Sharibu, whose mother I was honoured to meet on a recent London visit. Two years ago, 14-year old Leah Sharibu was abducted by Islamist extremists from her school in Dapchi, north-east Nigeria. There are reports that she was enslaved, raped and impregnated, giving birth to a child, and that she has been denied her freedom for refusing to convert to Islam as a precondition for her release. There are thousands of Leahs held all over Nigeria, and across the world. This report is dedicated to her and the millions of others who suffer so unspeakably. Its purpose is to explore the drivers of conflict and to highlight the seriousness of the situation and the level of injustice that Nigerian Christians face.

Among all the injustices for the UK to help correct in the near future, the widespread and growing persecution of Christians should be top of the list. Thus, as the UK faces the challenge of lockdown and mass quarantine for the first time in living memory, I ask you to please spare a thought for those Christians who face not only a pandemic but also threats of violence and persecution that we can't imagine. The report urges the Government of Nigeria and the international community to implement its recommendations to help save the lives of Nigerian citizens and to improve their welfare.

Suspected Fulani Herdsmen on Saturday killed 20 people in Chibuak and Kigudu II communities in Kuru Local Government Area of Kaduna State in a renewed violent attack. The Parish Priest of Damakasuwa Outstation, Rev. Fr. Aaron Tanko, who oversees the two communities, confirmed to DAILY POST that, 20 persons were killed while some others were still missing. Also, a resident in the area who claimed he escaped narrowly said the gunmen entered the two communities in the midnight of Friday, and Thursday while the villagers were fast asleep, killed 20 people, and injured several others while several others are still missing.

The middle-aged man who refused to disclose his name for fear of attack said the bandits launched another attack on Saturday on Kigudu II where the villagers were preparing for a mass burial of some of the victims who are members of Catholics church. The Parish Priest of Damakasuwa Outstation, Rev. Fr. Aaron Tanko, added that, although the bandits were repelled by security personnel, the burial ceremony was conducted without the usual rites. He said in Chibuak village, nine people were killed while 11 were killed in Kigudu II.

Given a comprehensive account of the killings, he said, “The attacks took place on Thursday and Friday at midnight. Chibuak was attacked on Thursday and nine people were killed. They attacked Kigudu II on Friday night and killed 11 people. “Some people are still missing so I cannot conclusively say this is the casualty figure. Some of those killed are my parishioners and other Christians of other denominations. “We were preparing for the mass burial of our Parishioners this morning (Saturday) in Kigudu II but we could not do it when the herdsmen came attacking us again. Many of our villagers are at the mercy of Fulani herdsman. They are always well-armed and they invade our communities and kill people at will. “There are villages where people cannot even go to their farms for fear of being killed by herdsmen,” the clergyman said

- Daily Post, July 11, 2020. Governor Samuel Ortom of Benue State has called on President Muhammadu Buhari to declare armed herdsmen killing innocent people in communities of Benue State as terrorists. The Governor made the call following repeated herdsmen attacks on different communities of the state in the last couple of months. The latest of such attacks took place on Friday night at Tse-Chembe community near Anyiin in Logo Local Government Area. The herders allegedly murdered seven persons in cold blood and left many others badly injured. Reacting Ortom in a statement by his Chief Press Secretary, Terver Akase, condemned the invasion and killings. Describing the situation as unacceptable, Ortom reiterated that the State has a law which prohibits open grazing of livestock.

The mouthpiece of Southern Kaduna, the Southern Kaduna Peoples Union (SOKAPU), has raised the alarm over what it described as continuous killing of its people. It lamented 22 natives have been killed in fresh attack on communities in Zangon Kataf Local Government Area. SOKAPU, in a statement on Sunday evening by its National Public Relations Officer, Luka Binniyat, expressed dismay the attack was carried out in the communities despite ongoing 24 hours curfew imposed in the local government area. It alleged: “In the early hours of Friday, 10th July, 2020, precisely around 1:30 am, the suspected Fulani militia invaded a remote, peaceful farming community called Chibob in Atyap Chiefdom, Gora ward of Zangon Kataf Local Government Area.

“The unprovoked attack ended in the massacre of Nine (9) Atyap natives, mostly women and children who were murdered in their sleep in the most barbaric manner imaginable, adding that the invaders also burnt down over 20 houses, destroyed farmlands, rustled 24 cattle and other livestock, looted foodstuff and other property of the villagers. “As the curfew persisted, in the early hours of the following day, being Saturday the 11th July, 2020, this militia continued their attacks in neighbouring remote communities. In particular, they attacked Kigudu community which is close to Chibob, located at the boundary between Zangon Kataf and Kauru LGAs.

“This led to the death of 10 women, an infant and an old man who were burnt to death inside a house they had taken refuge. Some of the corpses were burnt into ashes. Four homes were razed. This brought the death toll to twelve (12) in that community. With the curfew still in rigid enforcement, Anguwan Audu, a Surubu village, still under Gora ward was invaded this morning of 12th July, 2020, where the village was looted and entirely burnt and one person killed. “This brought to a total death toll of 22 persons in three days of unbroken attacks under a 24-hour strictly imposed curfew that has been running for 31 days today. The number has increased to 24.

- Vanguard Newspaper, July 14, 2020: I was gang-raped by herdsmen, offered blood to drink as water — Kidnapped victim. Twenty-five-year-old Victoria Okocha, yesterday, gave a chilling account of how she was abducted by suspected herdsmen in Isa-Ogwashi-Uku area of Delta State, gang-raped and forced to drink another victim's blood as water, while in her captors' den. Okocha left her home town in Ubulu-Uku, Aniocha South Local Government Area of the state last Friday, heading for Asaba, the state capital, when they sighted a fallen tree across the road at Isa-Ogwashi. Apparently thinking the fallen tree was as a result of the downpour the previous day, the driver, according to her, kept moving toward the direction, until they discovered too late that it was used to barricade the road.

She said: "By the time the driver attempted to reverse, it was too late as a man armed with a cutlass, hit his side window in an attempt to drag him out of the vehicle. Passengers hurriedly jumped out and ran into the bush in different directions. "But I was unlucky because I had cramps and fell. Another one got hold of me and dragged me into the bush, while the driver, who was inflicted with machete cuts managed to escape. "They took me far into the bush and demanded N20 million ransom. When I told them my family could not afford that amount because we are poor, they threatened to cut my breasts and pluck out my eyeballs from their sockets if they did not get the amount. "They were five in number and only one of them could speak English. I was blindfolded and had my hands tied. Five of them took turns to rape me that night.

"When they contacted one of my relatives, Afamefune, he begged that they reduce the amount and they agreed to reduce it to N5 million. I stayed with them for two days before my people could raise some money, which was dropped at a designated place. They also collected N2,000 out of the N3000 cash I had in my bag. Offered blood to drink "In my weak state, I begged them to give me some water to drink and they offered me blood. The blood was that of a lady they kidnapped and murdered while I was there. They also drank out of the blood. "Leader of the gang, who could speak English, told me that their intention was also to kill me because my family did not give them a reasonable amount. But he intervened by sending other members away and told me to run away, showing me the direction to take. I was able to locate the road, where I saw a vehicle that was heading towards the direction of my village."

- A PUBLIC STATEMENT BY AWEMI DIO MAISAMARI NATIONAL PRESIDENT OF ADARA DEVELOPMENTASSOCIATION (ADA) ON 20th JULY 2020.

The Adara Development Association (ADA) mourns the senseless massacre 17 (21) persons in the Kagoro community of Kukum Daji in Kaura LGA which is the latest theater of the ethnic cleansing going on in Kaduna State. Indeed we mourn with victim communities (including Hausa commoners in the far North) of the 21st century Fulani Jihad all over Nigeria who have endured or are now enduring Fulani terrorist bestiality.

We believe by now, the following immutable words of Albert Einstein should become apparently prophetic. He said "The world is a dangerous place, not because of the people who do evil, but because of the supposedly good people who refused to do anything about it" Specifically, because the Nigerian government refuses to prioritize and effectively perform its minimum constitutional duty of protecting lives and properties, the unfolding Nigerian holocaust has continued or escalated unabated.

1. We may recall that on Thursday, 16th July, Fulani terrorists descended on Mai-ido and other neighboring villages in Kachia LGA of Kaduna State and made a mass abduction of 32 people. In the process, four persons were killed three of which have confirmed to be John Auta, Danjuma Bala and Christopher Ayuba. Also recall that in my press statement of 7th July, 2020, the interception of two vehicles bringing Fulani terrorists to the area was reported.

2. On Friday, 17th July 2020, Mr. Ayuba Bulus, a 34 years old farmer, married with 2 children from Doka Avong Village in Kajuru LGA was killed by suspected Fulani terrorists on his farm. Later in the day, the suspected Fulani terrorists moved on to attack Efele, an Adara settlement in the same locality. Four persons were gruesomely hacked to death and many houses burn down before the blood thirsty murderers were dislodged.

The victims are Gloria Shagari (25 years) and her two children Dorcas and Faith Shagari aged 6 and 3 years respectively. The other victim is Hussaini Daudu aged 40 years. In addition, the Reverend Thomas M. Gambo of the local Baptist Church was seriously wounded and is lying in a critical condition in the hospital. His motorcycle was also snatched and yet to be quantified properties and farms were destroyed.

3. The Adara Development Association has continued to raise alarms about the continuing genocidal carnage in Adara land and other Southern Kaduna communities. And yet the government of Kaduna state has belligerently continued to turn a blind eye to the atrocities.

- By the account of Daily Post, Southern Kaduna attack: 11 killed, others injured in Gora Gan. About 11 people have been confirmed killed Monday night in a fresh attack in Gora Gan village, Zangon Kataf local government area of Kaduna State by suspected Fulani militias. Also, about seven were reported to have different degrees of injuries and have been rushed for treatment in an undisclosed hospital, with others missing.

The CAN Vice Chairman of the local government area, Pastor Isaac Ango Makama who confirmed the attack to DAILY POST, said the attackers numbering 50, stormed the village at about 7pm and started shooting sporadically, leading to the loss of lives and burning of undisclosed number of houses. He said that most of the corpses have so far been deposited at the Zonkwa General hospital while some of the villagers are still searching for their loved ones. He called on individuals and organisations to come to the aid of the affected villagers to assist them at this trying moment with foodstuffs and other materials of livelihoods. He added that Internally Displaced Persons, IDPs, camp at Zonkwa is daily receiving more displaced people coming to take shelter. Secretary of Mercy IDP camp in Zonkwa, Mr. Ezekiel James disclosed that the camp has registered 559 people who have fled from neighbouring villages, with more coming in to take shelter.

Summary Of Christians Killed By Jihadist Herdsmen Alone: The total Christian casualties from Jihadist Herdsmen killings across Nigeria especially in Southern Kaduna, Benue and Plateau States in the past 200 days or 1st Jan to 20th July 2020 have risen to 926 deaths; with Adara and environs in Kajuru Local Government Area of Kaduna State being visited with 152 killings or Christian deaths and the rest of the Southern Kaduna 148 deaths, totaling 300. The rest of the country excluding Southern Kaduna was also in the past 200 days of 2020 or 1st Jan to 20th July 2020 visited with 626 killings or Christian deaths. In first twenty days of July 2020, Southern Kaduna has lost no fewer than 107 Christians and Benue at least seven; totaling 114 deaths.

Till date, too, the whereabouts of over 32 Christians including women, children, old citizens and others abducted by the invading Jihadist Fulani Herdsmen on 16th July 2020 in Mai-ido and other neighboring villages in Kachia Local Government Area of Kaduna State have remained unknown, raising strong fears of their possible death in captivity. Four defenseless Christians including John Auta, Danjuma Bala and Christopher Ayuba were massacred during the attacks. If correctly presumed dead in the Jihadist Herdsmen captivity, this would bring the total number of defenseless Christians killed by the Jihadist Herdsmen in Southern Kaduna in the last twenty days of July 2020 to 139 deaths.

Updated Today, 22nd July 2020
